

## Practice health and safety policy

### General statement of policy

Our policy is to provide and maintain safe and healthy working conditions, equipment and systems of work for all our employees and to provide such information, training and supervision as they need for this purpose. We also accept our responsibility for the health and safety of other people who may be affected by our work activities. This policy applies to all employees of the practice, dental associates, dental hygienists and other contractors providing services to the practice, such as anaesthetists.

The allocation of duties for safety matters and the particular arrangements that we will make to implement the policy are set out below.

This policy will be kept up to date, particularly as changes occur within the practice. To ensure this, the policy and the way in which it has operated will be reviewed every year.
